

Infinity Series Bench Trays

The infinity series bench trays are an array of 4' wide premium ABS panels that work together to create custom length bench trays. These 4' and 8' length center trays interlock with 4' end trays to create a custom length grow tray.

The 2.5" low profile panels and a designated drain section on all 4' end trays allow for sub irrigation growing applications.

Bench tray

Features

- Interlocking nested panel design to allow you to create custom lengths
- 10%-15% thicker than other bench trays allow for longer lasting, sturdy performance.
- Chemical and heat resistant premium ABS plastic
- No arch lip allowing to maximize your grow space
- BPA free and 100% recyclable plastic

Options

- LOCTITE 5510 – non yellowing, UV-resistant adhesive sealant

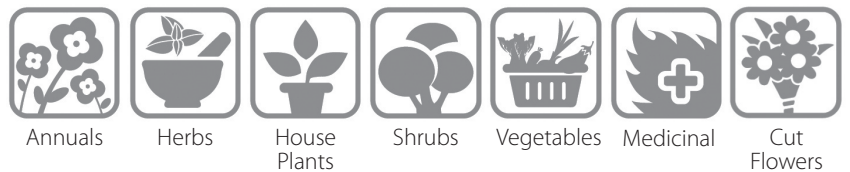

Application Notes

- Flood and drain setups are not recommended to exceed 64'

Applications
